PROFILE

Senior developer with more than 20 years of experience, capable of managing projects from concept to completion. Successful at building high performance online solutions, with a focus on creating dynamic and intuitive user experiences. Hard working team player possessing a meticulous attention to detail as well as a knack for keeping projects on time and on budget. A strategic thinker with a clear sense of purpose and urgency who thrives in a fast-paced environment. Calm, collected and eternally optimistic during even the most difficult times.

PROFESSIONAL EXPERIENCE

Greenhouse Partners, Boulder, CO

2015-Present Developer

- Lead developer across dozens of websites with a focus on Drupal 7 and 8, built with custom upstream repositories tied to composer managed dependencies and hosted on Pantheon and Acquia platforms.
- Responsible for developing, maintaining and updating all code for Drupal core, custom and contributed modules, PHP, MySQL, twig and javascript.

SketchUp (Trimble), Boulder, CO

2013-2015 Web Developer

- Web development, UI/UX, and Acquia AWS cloud management of the Trimble Buildings' online marketing and ecommerce sites using a Drupal 7 multi-site configuration, HTML5, Sass/Less/CSS3, JavaScript/jQuery and Bootstrap.
- Responsible for the technical direction of online sales and marketing platforms, overseeing weekly code releases and developing quality control processes around code repositories and database management.

Spiremedia, Denver, CO

2012-2013 Drupal Front-End Web Developer

- Development of Drupal sites, working with and extending pre-existing open-source technologies and responsive design.
- Interfacing with all departments including Sales, UI/UX, Design, Development and QA, establishing clear sets of goals which can be reached within various time and budget constraints.

Steerbox Consulting, Louisville, CO

2011-2012 Drupal Contract Web Developer

- UI/UX, Design and development of Drupal and Wordpress sites in LAMP, AWS and Acquia environments.
- Complete web development project cycles: contract negotiations, user experience, theme design, server configuration, programming, testing, and implementation.

NEWSTAGE media, Inc. Denver, CO

2010-2011 Lead Web Developer and Director

- Launched creative firm providing media relations, Drupal website development, design services and investor relations to various industries including cleantech, energy, information technology, mining, financial, retail, hospitality, and medical.
- Built and managed team of employees and contractors offering a multitude of professional services, from concept to completion.

CTA Integrated Communications, Louisville, CO

2006-2010 Creative Director

- Refocused web development team towards the use of Drupal, php, JavaScript plug-ins and other open-source technologies.
- Created project budget tracking system and implemented online project management software to streamline processes.
